Professional Summary

I am a self-learner Python programmer with a strong interest in web development. Over the past two years, I have gained experience in Python, networking, and Linux, and expanded my knowledge to include Django, security, and software architecture. I focus on scalable, secure, and well-structured systems.

Skills

Bash

Python

Django

Linux

OWASP

Git & GitHub

Docker

Redis

Celery

PostgreSQL

MySQL

Soft Skills

Communication

Teamwork

Responsibility

Creativity

Fast Learning

Problem Solving

Projects & Experience
